

2026 ESS SYMPOSIUM

The 1st ENGINEERING SCIENCES SOCIETY SYMPOSIUM

CALL FOR PAPERS

OKINAWA PREF. MUNICIPAL CENTER (JICHIKAIKAN), OKINAWA, JAPAN
OCTOBER 30 – NOVEMBER 1, 2026

Organizing Committee

General Chair:
Tadashi Wadayama, Nagoya Institute of Technology
General Secretary:
Tetsunao Matsuta, Saitama University
TPC Chair:
Tetsuya Kojima, NIT, Tokyo College
TPC Secretary:
Gou Hosoya, Osaka Sangyo University
Finance Chair:
Takanori Koga, Kindai University
Registration Chair:
Shigeaki Kuzuoka, Wakayama University
Publication Chair:
Gou Hosoya, Osaka Sangyo University
Publicity Chair:
Hiroki Nishikawa, The University of Osaka

Important Dates (AoE)

- ◆ Submission Deadline: ~~June 30~~ **July 7, 2026**
Acceptance Notification: **August 31, 2026**

Prospective authors are invited to submit original papers of up to **maximum 2 pages plus an optional 3rd page containing references only**. All submissions will be reviewed under a single-blind review process. Please refer to Author's Guideline in detail.

Submission page is now open:
<https://esss.ieice.org/authors-guideline/>

Notice

ACCOMPANY CONFERENCE REGISTRATION BENEFIT

2026 ESS SYMPOSIUM (October 30 – November 1) at Okinawa Pref. Municipal Center (Jichikaikan) and ISITA 2026 (November 1-4) at Okinawa Convention Center will be held consecutively in Okinawa, Japan.

To celebrate this joint academic events, we plan to offer a special discount to participants who register for both conferences.

About ESS Symposium

The ESS Symposium, organized by the Engineering Sciences Society (ESS) of the Institute of Electronics, Information and Communication Engineers (IEICE), is a flagship international symposium covering a broad spectrum of research areas in electronics, engineering, information, and communication sciences, from fundamental theories to practical applications. By encompassing diverse topics across the four ESS sub-societies, the symposium aims to encourage interdisciplinary exchange and stimulate cross-community collaboration. We invite contributions from researchers and practitioners worldwide to share their latest results, insights, and visions.

The 1st ESS Symposium will be held at Okinawa Pref. Municipal Center (Jichikaikan) in Okinawa, Japan, from October 30th to November 1st, 2026.

Theme and Topics

Theme: Cross-disciplinary research exchanges

Authors are invited to submit papers covering a broad range of research topics. Accepted papers will be published in the IEICE Proceedings Series.

Topics of interest include, but are not limited to:

- Signal Processing
- Circuits and Systems
- VLSI Design Technologies
- Mathematical Systems Science and its Applications
- Generative AI
- Agentic AI
- Physical AI
- Ultrasonics
- Piezoelectric Devices
- Medical Ultrasonic Devices
- Ultrasonic Power Devices
- Engineering Acoustics
- Audio Signal Processing
- Acoustic Scenes and Events
- Acoustic Environment Processing
- Information Theory
- Coding Theory
- Quantum Information Theory
- Information-theoretic Security and their Applications
- Information Security
- Wideband System
- Communication Theory
- Optical Wireless Communications
- Sensing and Localization
- Intelligent Transport Systems Technology
- Autonomous Vehicle Systems
- Mobility as a Service
- Smart Info-media System
- Image Media Quality
- Biometrics
- Reliable Communication and Control
